SHAWN D'SILVA

I am an undergrad at a leading Information Technology college in Goa, specializing in React.js and Node.js. My focus has been on building powerful multi-tenant applications while also being proficient in JavaScript and API architecture. I'm known for my ability to create unique MERN applications and prioritize UI/UX design. Additionally, I excel in testing and running software applications to ensure their reliability and performance.I'm known for my ability to create unique MERN applications and prioritize UI/UX design.
